

In the day and hour that we live in, if there ever was a time for the church to walk in a fresh baptism of the Holy Spirit and fire, it is today. This could very well be the number-one need for the body of Christ in this hour. We will not witness spiritual transformation apart from the work of the Holy Spirit in and through us.

The Lightnings of God

Joe Oden

Light can't be released without darkness fleeing. Whenever a light comes on in a dark room, darkness flees. Whenever a child of God comes in contact with atmospheres and people bound in darkness, there is a fleeing and shifting taking place in some form or fashion. It's a spiritual principle.

Until a believer's heart is rooted and grounded and established in the Word of God, they are on shaky ground. Their faith is fragile, their worship is shallow, and their capacity to receive new revelation and produce fruit will be compromised.

To deeply understand that the Word of God is the revelation and release of God is to understand that anything that becomes disconnected from the Word of God is to become disconnected from God.

Hear the Word of God, receive the Word of God, speak the Word of God, pray the Word of God and let God's kingdom come and His will be done.

God is not looking for people whose only aim is to effect political change. He is not looking for those who want to return to their comfortable lifestyles. He is looking for those who are willing to go outside their comfort zones and obey God.

We do not need to be afraid of the future.
We do not need to be scared because we
are traveling where we've never been
before. The commander of the Lord's army
will fight for us. He will be there just when
we need Him—never too early, never too
late, but always right on time.

We've Never Been This Way Before
